

Required Skills Checklist

Make/Recognize/Understand: These are all separate skills which need to be checked and drilled. E.g. With pronunciation: can they actually make the sound, can they hear and distinguish the sound, can they understand the concept that that sound exists, can they have a basic conversation about it.

Required Skill Set			Make/ Do	Recognize	Understand/ Discuss	Date	Teacher's Name
		Basics to be mastered					
		Variations to be exposed to.					
Narrative on Studying	1	Yes you can: You can learn. If you study the right way, you will learn. Use this guide to learn about how to understand the differences between conditions that lead to success or conditions that lead to failure. Are you doing the right things? Are you studying in the right way? Do you know how to study? Are you learning new study techniques (this is ongoing, even professional teachers are constantly learning about new and better techniques)? Are you stepping out of your cultural space of expectations and assumptions? Are you trying new and difficult things? Are you making mistakes and getting feedback? Are you studying routinely? Are you actually practicing the skills you want vs. assuming they will be transferable from some other training (e.g. I want to do presentations, so every day I read a book about TOEIC, in Japanese.). (Students sometimes believe that they cannot learn.)					
Study Skills: Organized Study	2	Needs & Goals Planner					
	3	Setting Up a Weekly Study Plan					
	4	Daily Study: Learning How to do Well-Rounded Daily Study					
	5	Materials & Tools: Text; vocab notebook; Making a study binder					
		Curriculum, Syllabus, Text: Make sure you understand your course of study, the timeline, the goals, requirements, assignments, and ask questions if you have any.					
	6	Plan & Revise: You should make or revise your learning plan as often as every month.					
	7	Tips on study planning: balancing areas, daily practice, etc. (see section on study tips)					
Study Skills: Concepts	8	Understand Constructivist Learning: The student is the teacher. Cooperation is good, but initiative is required.					
	9	Active, Not Passive: Your study needs to be characterized by focus, effort, hopefulness, and vigilance. Not Effortless, not comfortable, not entertaining - Don't look for something easy, familiar, and comfortable, and don't require these of your study plan. Practicing and using are more similar than different. You are "doing" English, or you're not doing English - there is not passive practice that will magically transport you to successfully using English without ever making mistakes. (E.g. My goal is to understand a native-level discussion. I want to understand a native level discussion. But I don't want to try doing it now, I want to use an easy "practice" that will make me able to do something I never practice doing.)					

1	10	Real English vs. Fake English: Knowing that text book and staged English is odd and not real. Show them a funny-clip of a Japanese for Americans text book. One reason why podcasts, articles and real English are important for study, is that text book English is strange English. You can see this by listening to a For-Americans Japanese-Language Text book. It's not quite natural Japanese. In the same way, English text books are not real natural English. But podcasts, articles, interviews, etc., are real and good models to study.					
		11	Culture Bubble: The classroom is a cultural bubble of foreign culture, where the student must use a foreign language and customs. Japanese-English, or Japanese language or costumes must not be expected or required from the teacher or students (though often they will be helpful, and sometimes may be banned).				
			A Job-Event Rehearsal, not a classroom: Try to see you time in the classroom as practice for work event, not as any conventional teacher-student classroom space.				
		12	Non-Literal English: Its existance and prevalence				
		13	Mistakes are ok, Mistakes are good! Mistakes are Good Feedback: Finding out that you can't do something, or finding out that you made a mistake, or failed at something, is not a bad thing. On the contrary it is a very good thing, even necessary. Getting feedback about what you can and cannot do is one of the most important and vital parts of learning. Without this data about where you are and what you can do, it will be much harder or impossible to improve where you need improvement (if you never find out what those areas are) and get to the goals you need. In the real world mistakes can be costly, but in the classroom they are gold.				
2	Study Skills: Tools and Resources:	14	1) Use an internet Dictionary 2) Use an internet Thesaurus 3) Subscribe to a podcast that you use. 4) Search & subscribe to an iTunes U class. use English web sites, browsers, etc. Use Audio-Video feedback to record yourself.

	Language about Language	20	Language About Language: word, letter, tense, verb, etc.				
	Introductions & Greetings Set	21	Introductions: 10 sec Self Intro (name, country, company, job) see basic guide)				
		22	Introductions: Hands Shakes & Proxies Culture Level 1: The Proxies: Handshake (and the american double pump), eyes, posture, positive, simple, direct, clothing, ; basic spectrum of monistic simple = the only good				
		23	Introductions: 30 sec self intro (name, hometown, schooling, professional interests, see basic guide)				
		24	Introductions: Q&A (where are you from, where do you work, etc. see basic guide)				
		25	Introductions: Job Question Variations				
		26	Introducing two other people.				
		27	Introductions: Culture: Key Semantics (the "hobby" taboo)				
		28	Greetings - routine greetings (first time?)				
3	Pronunciation Et al	29	1) The Inequalities				

4	30	1.1 Sounds Don't equal letters. (Vowels)					
	31	1.2 Phonemes don't equal syllables (Sound and Timing)					
	32	1.3 Syllables don't equal beats of rhythm in Pronunciation (Timing)					
	33	1.4 Syllables don't equal the number of Different Sounds (Sound and Timing 2)					
	34	1.5 Consonants do not equal phonemes. Words Ending in a consonant sound should not end in a vowel sound.					
	35	2) Consonants					
	36	2.1 - LRD					
	37	2.2 consonant sounds - L,T,W,D,Z,J,Ch,Sh,S,R,Th					
	38	2.3 sustained sounds: F, S, Sh, Th, Th, Z,V, L, R, M, N					
	39	3) English Phonemes (Vowel Consonant Combinations)					
	40	3.1 The large number of Vowel/Consonant Combinations in English:					
	41	3.2 Two sound wheels					
	42	3.3 Missing & Confused Phonemes					
	43	4) Difficult Combinations					
	44	4.1 Sounds					
	45	4.2 Words					
	46	4.3 Whole Sentences (Tongue Twister)					
	47	5) Intonation (Pitch range and patterns)					
	48	5.1 - Two question patterns					
	49	5.2 - Four statement patterns					
	50	5.3 - For "or" questions (Would you like this or this?)					
	51	6) Rhythm, Cadence, Pace					
	52	6.1 - Basic rhythms for basic sentences (see basic dialogues)					
	53	6.2 - Fast pronunciation					
	54	7) Basic Mood & Emotional Expressions in English					
4	Questions Set						
	55	(Common Questions) Basic Set-Questions 1: What is this/that? What are these/those? Color, quantity, location. Personal questions: name, age, home, hobbies, job. Where are you from? How was work? What did you do? Did you do anything special/new?					
	56	Question Words level 1: Who, what, when (what time), where, why, how(many/often/does/much), is(are), if(+then),do(did,does)?					
5	57	Question Words Level 2: Modularizing Questions & Modifiers: do, could, would, should, might, will, do, did, were, are, was, kind of, about, can, about/approximately,					
	Time & Numbers Set						
	58	Reading Big numbers: 837,948,728,382,392.838282*10^43cm					
	59	1) Frequency and Probability					
	60	1:1- only 1 unit = once a (day/week/month/year) (once in a lifetime/century) 1:2- once every 2 units = every other/ once every 2 unites 1 ;X-more than 2 units = once every # units X:Y - X out of every Y units					
	61	2) phrases for clock times and dates (e.g. quarter of; 3rd of June)					
	62	3) Four Tenses & irregular verbs; mixing tense					
	63	4) points & periods vs. duration (e.g. By vs. Until)					
	64	5) Time & Schedule Prepositions: On Tuesday, By next month, In November, Around July. [none] Next week					

6	Style and Grammar: (Writing)	65	Countability					
		66	6) Points in time vs. Periods of time (until vs. at)					
		67	1) Punctuation					
		68	2) Prepositions					
		69	4) common grammar mistakes: S/no S; The/A; etc.					
		70	"the" or "a"					
		71	"s" or no-"s"					
		72	tense					
		73	"ed" or "ing"					
		74	Adding "to" where it isn't needed					
(Category?)	(Category?)	75	translation of <i>to</i> as "to"					
		76	3) Language about language					
		77	5) Agreeing & Disagreeing (Real-Life True-False)					

The Big 3
