Modifiers *add to the basic 10 questions*

a. could	h. does
b. would	i. were
c. should	j. is, are
d. might	k. was
e. will	l. kind of, kinds of
f. do	m. can
g. did	n. about, approximately

*Note: $10 \times 14 \times 2 = 280$, there are about 280-500 groups of question sentences represented by these elements.
10 basic word groups, 14 basic modifier groups, and 2 forms: using the words at the beginning or not at the beginning of the sentence.
Adding negative forms would not double the size again, since not all questions can be made negative, but it does make for more questions.*
